Fig. The relationship between basal and height of different species of trees

Weakness	Improvement
Size of titles, labels is small	Adjust title, label size
Meaning of legend is unclear	Replace codes with tree species name
Major content is at the bottom	Remove outlines, keep data located in quantile 5%-95%
Unable to distinguish between different tree species	Remove tree species whose sample size is less than 5% of the total to highlight relationship in major species; Adjust points color
